

Connecting to Dover Business College Wireless Network

Connecting to the Wireless network at Dover Business College can be done in a 3 step process

1. Click on the 'Available Wireless Network' icon in the lower right hand of your screen.

2. You will be presented with a screen showing all available networks. Select the DBC-WLAN network and then click connect.

- The last step is to open any web browser on your computer (Internet Explorer, Firefox, Opera, etc.). You will be presented with the screen you see below. You will enter your network (also known as Blackboard) username and password here (firstname_lastname and password). These are the credentials you use to sign on to your computer. The required field is highlighted below. Click on the log In link.

- You are now signed on to the wireless network.
